

## Make sure customers can book an appointment, even when your business is closed.

**30%**  
of searching customers want to book a service.\*

### Why get Bookable?

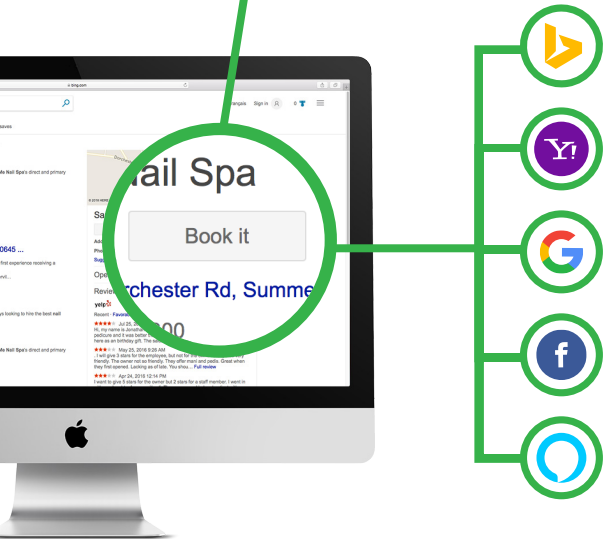

Our information shows 42% of all bookings happen during closed hours. Bookable ensures your business will capture potential customers even when it is closed. It also simplifies the process for those customers interested in your business.

Your booking button works with all major business directories, social media and search engines. You can also link to your booking page from your website, email and social media posts.

### Bookable makes the booking process easy for your potential clients.

Bookable lets customers easily schedule appointments directly from Google, Facebook, Bing and more. Customers can request appointments in an organized way and you'll be notified by email or text message when they book with you.

Your revenue is just one click away. **Bookable** provides a strong return on your investment: **appointments!**

Available in the Review Sync & Social Sync packages or on its own.
